

FREQUENTLY ASKED QUESTIONS

Can Lewis's create Soft Furnishings for my Boat, Bus, Caravan or Motor Home?

FOR MORE FAQ
www.lewiss.co.nz/faq

These vehicles require curtains, blinds, and squabs which have very specialised requirements. They may require:

- > Furnishings with unique anchoring or fitting systems.
- > Furnishings with domes, eyelets, or velcro tabs.
- > Furnishings with special shapes, headings, angles and controls.
- > Curtains that are fixed at the top and bottom.
- > Blinds on control wires with special hold down clips.
- > Squabs that need to be anchored down.

In addition, when designing furnishings for these vehicles, you are commonly working in a limited space, where our standard products won't fit. You may also require specialised fabrics to avoid salt and sun damage.

We have identified that this is a niche market and we do not have the specialised expertise and experience to guarantee successful outcomes. Therefore, we recommend you use a marine upholster who has years of experience with these types of products and applications. We suggest you discuss your requirements with:
